Disclaimer

Crypto trading is highly speculative in nature which can mean crypto prices may become extremely volatile. You may sustain a total loss of your funds . Crypto trading carries a high level of risk and may not be suitable for all investors. Always consult a financial professional (advisor, planner etc.) before making any investment decisions. It is possible that you will sustain a loss of some or all of your initial investment so never risk capital that you cannot afford to lose. No representation is being made that any account will or is likely to achieve profits or losses. Past performance is not indicative of future results. Individual results vary and no representation is made that clients will or are likely to achieve profits or incur losses comparable to those that may be shown. You acknowledge and agree that no promise or guarantee of success or profitability has been made between you, and Dan Hollings and the Crypto Masters team.

Binance, the world's largest cryptocurrency exchange, gets banned by UK regulator

PUBLISHED MON, JUN 28 2021•5:14 AM EDT | UPDATED MON, JUN 28 2021•2:26 PM EDT

The FCA spokesperson clarified that the scope of the ban was limited. Though Binance Markets Limited is banned from offering regulated services in Britain, non-registered firms can still interact with U.K. consumers. That means Binance could still offer Brits crypto trading through its website.

We are aware of recent reports about an FCA UK notice in relation to Binance Markets Limited (BML).

BML is a separate legal entity and does not offer any products or services via the Binance.com website. (1/4)

A Binance spokesperson told CNBC: "The FCA U.K. notice has no direct impact on the services provided on Binance.com ... Our relationship with our users has not changed."

Todays "FUD" is last weeks forgotten story.

FUD is generated by influencers, companies, media and government agencies.

"Providing access to cryptocurrencies itself is not a regulated activity, but offering derivatives is, which is presumably the activity the FCA is clamping down on."

Binance is NOT banned in the UK, the FUD is deliberate.
Merely market regulation notice for www.Binance.Uk site

No, it's not FUD that Binance was stopped from operating in the UK.

Fear Of Missing Out

“FOMO”

FOMO is a more personal thing.
Its the fear of missing out on something that others are enjoying

“FOMO”

FOMO is a more personal thing.
Its the fear of missing out on something that others are enjoying
(for example the fear of missing out on Bitcoin gains
while others are picking out their Lambos).

FOMO might drive you to buy into a coin -OR-
not take profits on a coin that has gone up considerably.
It is the idea you get in your head that rational profit taking
will result in you missing out.
This fear of missing out is what causes people to
buy at the top or hold during a dip after making profits
(only to lose some or all of their profits again).
