THE PLAN

SESSION 6: Closing or Cancelling a Grid Bot

www.gawsodo.com

Disclaimer

Crypto trading is highly speculative in nature which can mean crypto prices may become extremely volatile. You may sustain a total loss of your funds . Crypto trading carries a high level of risk and may not be suitable for all investors. Always consult a financial professional (advisor, planner etc.) before making any investment decisions. It is possible that you will sustain a loss of some or all of your initial investment so never risk capital that you cannot afford to lose. No representation is being made that any account will or is likely to achieve profits or losses. Past performance is not indicative of future results. Individual results vary and no representation is made that clients will or are likely to achieve profits or incur losses comparable to those that may be shown. You acknowledge and agree that no promise or guarantee of success or profitability has been made between you, and Dan Hollings and the Crypto Masters team.

2. Always check your MASTER WALLET (in upper right at Bitsgap) It will not change if you close, cancel or re-grid.

3. If you can ADD new capital to your grid investment upon re-gridding, it mitigates loss.

4. If you can NOT add new capital, some of the COIN-ON-LEFT may get sold to free-up capital for new green lines at bottom of re-grid.

HOW TO RE-GRID

1. Wait until you feel the market/ price has bottomed out and seems likely to rebound

2. Always check your MASTER WALLET (in upper right at Bitsgap) It will not change if you close, cancel or re-grid.

3. If you can ADD new capital to your grid investment upon re-gridding, it mitigates loss.

4. If you can NOT add new capital, some of the COIN-ON-LEFT may get sold to free-up capital for new green lines at bottom of re-grid.

5. In most cases, you will sustain a LOSS when you re-grid. This loss may be recouped from future wiggle or price gain in the market.

  Set Trailing Down 5% to 10% BELOW Range Bottom (Depending on available RIGHT-COIN capital)
- **ON EXISTING BOT (Price below grid)**
  Set Trailing Down 5% BELOW Current Price (This will activate an Auto-Regrid)

NOTE: On an “Auto-Regrid” the bot will buy to fill in the missing lines. It does not wait for price to “hit” lines, rather it buys low multiple times (minute-after-minute) which is highly advantageous. Just let it do its thing *(It might take 30 minutes to complete it’s re-grid effect - It might say “DUMP” during this process - just ignore).*
