THE PLAN

SESSION 3: Selecting Coin Pairs

www.gawsodo.com

Disclaimer

Crypto trading is highly speculative in nature which can mean crypto prices may become extremely volatile. You may sustain a total loss of your funds . Crypto trading carries a high level of risk and may not be suitable for all investors. Always consult a financial professional (advisor, planner etc.) before making any investment decisions. It is possible that you will sustain a loss of some or all of your initial investment so never risk capital that you cannot afford to lose. No representation is being made that any account will or is likely to achieve profits or losses. Past performance is not indicative of future results. Individual results vary and no representation is made that clients will or are likely to achieve profits or incur losses comparable to those that may be shown. You acknowledge and agree that no promise or guarantee of success or profitability has been made between you, and Dan Hollings and the Crypto Masters team.

3. FACT:
   - Some exchanges offer more coin selections.
   - Some exchanges offer more grid line capacity.
   - Some exchanges offer "Leveraged tokens."

www.getwsodo.com

LEVERAGED TOKENS

“NOT COVERED”

ETHUP or ETHDOWN etc
ETH3L or ETH3S etc

Tokens of this type will not be covered in PHASE 1 of "THE PLAN”

They require special settings, often require approval to trade, are not on US exchanges.

These will be taught in later phases of THE PLAN.

It is recommended you NOT trade these until you master HODL BOTS and STANDARD COIN BOTS

4. You are encouraged to explore ALL your options. In fact, many people following THE PLAN connect and use more than one exchange.

IN GENERAL:
10K or less: one exchange is likely best.
Over 10K: multiple exchanges might provide diversity and greater coin selection.

You may have them in a bot a few weeks or a few months. You are seeking wigglers.

If you do invest or start your bot, it is advisable to start small, perhaps $3000 to $5000.
